Our History

Firetrail was founded in 2018 and is majority owned by its investment staff. Prior to its formation, the founding portfolio management team worked together at Macquarie Group for over a decade.

The founding portfolio management team were responsible for managing the highly successful Macquarie High Conviction Fund, which was one of the top performing Australian equity funds over the medium and long term.*

Patrick Hodgens was Portfolio Manager for Macquarie's first global equities fund which launched in 1990. Following that, he helped to set up Macquarie's UK, European and Asian equities businesses. Macquarie's AUM in global equities had grown to A\$24 billion by 2018 when the team left to start Firetrail.

POSITIVE CHANGE / SUSTAINABLE EDGE INFORMATION

Firetrail aims to buy companies it believes may benefit from positive change in their business, industry or markets, or meet one or more of Firetrail's proprietary sustainable investment themes, which have been grouped from the United Nations Sustainable Development Goals (SDGs). Positive change in this context refers to changes made by companies to implement one or more of Firetrail's sustainable investment themes. Each company under consideration for the S3GO portfolio is assessed fundamentally by Firetrail to determine whether it currently meets, or is expected to within a 5-year investment horizon meet, one or more of Firetrail's sustainable investment themes. Companies that do not meet at least one of Firetrail's sustainable investment themes will not be included in the S3GO portfolio, and where Firetrail determines an investment no longer meets one of its sustainable investment themes, such investment will be divested as soon as reasonably practicable.

Sustainable edge refers to Firetrail's investment philosophy that sustainable companies deserve premium valuations. That is, companies that the market perceives to have sustainable characteristics, such as good environmental practices, a social license to continue operations over the long-term, or strong corporate governance, deserve premium valuations relative to companies that do not.
