

Firetrail signs United Nations-supported Principles for Responsible Investment

December 2020

As part of ongoing efforts to foster responsible investing across the business, Firetrail is pleased to announce that it has signed the United Nations-supported Principles for Responsible Investment ("PRI")

Firetrail now joins the leading international network of institutional investors committed to including environmental, social and governance ("ESG") factors in their investment decision making.

Firetrail has incorporated ESG factors into its investment decision making process since inception, including the principles promoted by the PRI. However, we made the decision to become an official signatory to publicly demonstrate our strong commitment to responsible investment practices. We are proud to ratify the six global principles for responsible investing and look forward to working collaboratively with the other signatories on responsible investment issues.

"We are delighted to welcome Firetrail on board as a signatory" commented Fiona Reynolds, CEO of the PRI. "It is great to see their commitment to incorporating ESG and responsible investment practices, and we look forward to working together in future."

The six key principles are:

1. We will incorporate ESG issues into investment analysis and decision-making processes.
2. We will be active owners and incorporate ESG issues into our ownership policies and practices.
3. We will seek appropriate disclosure on ESG issues by the entities in which we invest.
4. We will promote acceptance and implementation of the principles within the investment industry.
5. We will work together to enhance our effectiveness in implementing the principles.
6. We will each report on our activities and progress towards implementing the principles.

For more information on the PRI, please visit their website: <https://www.unpri.org/>
