 <p>McKesson Listed: US</p>	<p>McKesson is a US pharmaceutical distributor founded in the 1830s. Distributors act as a toll road for the pharmaceutical industry, taking a clip of most transactions. Over decades, McKesson has developed critical distribution infrastructure to ensure drugs get from manufacturers to pharmacies for end users to purchase.</p> <p>What Matters</p> <ol style="list-style-type: none"> Market position - McKesson is the largest player in a three-player market. Its scale and infrastructure make it very hard for new entrants to compete. Economics - While pharma distribution is a low margin industry, McKesson is still able to generate high returns on capital for shareholders due to the immense volume of product that moves through its distribution network and the company's strong working capital management. 	<p>Positive Change Theme</p>  <p>Health & Wellbeing</p>
