## Section 1: About Pinnacle Fund Services Limited

### Pinnacle Fund Services Limited

Pinnacle Fund Services Limited ABN 29 082 494 362 AFSL 238371 is the responsible entity ('Responsible Entity', 'we', 'our', 'us') of the Firetrail S3 Global Opportunities Fund ARSN 653 717 625 ('Fund'). Pinnacle Fund Services Limited is wholly owned by Pinnacle Investment Management Limited ABN 66 109 659 109 AFSL 322140 ('Pinnacle'). Pinnacle supports the development of high-quality investment management businesses and is the distributor of the Fund.

Citi has been appointed as the Custodian and Fund Administrator for the Fund. Citi's role as Custodian is limited to holding assets of the Fund. As the Fund Administrator, Citi is responsible for the day to day administration of the Fund.

We have appointed Firetrail Investments Pty Limited ABN 98 622 377 913 AFSL 516821 ('Firetrail' or 'Investment Manager') as the investment manager of the Fund. Neither the Responsible Entity nor Firetrail guarantees the performance of the Fund or the return of capital or income. Your investment in the Fund is subject to investment risk. This could involve delays in repayment and loss of income or the principal invested.

### Firetrail Investments Pty Limited

Firetrail is an active investment manager, specialising in high conviction equities investing. Firetrail employs a fundamental and quantitative investment approach to the Fund to identify global companies that it believes are undervalued, and will benefit from positive change, over the medium to long term. The investment style is unconstrained, which means Firetrail will invest in both 'growth' and 'value' companies, as well as across diverse industries and sectors. Firetrail employs a bottom-up approach to portfolio construction. Risk management is integrated throughout the process to understand and control stock specific, macroeconomic, currency exposure, country exposure, and market risk in the Fund.

## Section 2: How the Firetrail S3 Global Opportunities Fund works

How does the Fund operate?	The Fund is a registered managed investment scheme. When you invest in the Fund, your money will be pooled with that of other investors and you will be issued 'units'. Each unit held in the Fund gives the unit holder a beneficial interest in the Fund as a whole, but not in any particular asset of the Fund. Holding units in the Fund does not give a unit holder the right to participate in the management or operation of the Fund. Each unit in the Fund offered or issued under this PDS is of equal value and identical rights (as between units of the same class) are attached to all such units. We are required by the Corporations Act to treat all unitholders within a class of units equally and unitholders in different classes fairly. We will keep a record of the number of units you have bought.	
Applications	You can increase your investment at any time by buying more units in the Fund. When you make an investment in the Fund, your units will be allocated to you based on the entry price for the Business Day your application is processed.	
Minimum investments <sup>1</sup>	Minimum initial investment	\$20,000
	Minimum additional investment amount	\$5,000

	<p>Minimum withdrawal amount \$5,000</p> <p>Minimum investment balance \$20,000</p> <p>The minimum initial investment amount does not apply to investments through an IDPS.</p>
<b>Withdrawal</b>	<p>You can decrease your investment at any time by withdrawing your units in the Fund. When you withdraw, your units will be redeemed based on the exit price for the Business Day on which your withdrawal request is processed. Direct withdrawal requests can be made daily, and must be received by the Fund Administrator, Citigroup Pty Limited ('Citi'), prior to 12pm (Sydney time) on a Business Day. Withdrawal requests received after that time, or on a non-Business Day, will be treated as being received on the next Business Day. Electronic transfer of the redemption proceeds can take up to 7 Business Days, however it will often be completed in a shorter period of time.</p> <p>There is a minimum withdrawal amount of \$5,000. If your withdrawal request would result in your investment balance being less than \$20,000, we may treat your withdrawal request as being for your entire investment. We will provide investors with advance notice of any compulsory redemption. The minimum balance does not apply to investments through an IDPS.</p>
<b>Access to funds</b>	<p>Extreme market conditions can cause difficulties or delays to the Fund being able to sell its assets or requiring it to freeze withdrawals. These circumstances could result in it taking a period of time before you are able to withdraw your investment, or for it taking longer than usual for you to receive your withdrawal proceeds. We will not satisfy a withdrawal request if the Fund becomes illiquid (as defined under the Corporations Act 2001 ('Corporations Act')). In certain circumstances we may suspend withdrawals.</p>
<b>Unit price</b>	<p>A unit price is calculated for every Business Day which is equal to the value of the Fund's net assets attributable to the units divided by the number of units. Generally, the unit price changes daily as the market value of the Fund's assets rises or falls.</p> <p>The entry price is calculated by taking the net asset value of the Fund apportioned to the Class A units and adding to it an amount which reflects the estimated cost of acquiring the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of Class A units on issue in the Fund.</p> <p>The exit price of the Fund is calculated by taking the net asset value of the Fund apportioned to the Class A units and subtracting from it an amount which reflects the estimated cost of selling the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of Class A units on issue in the Fund.</p> <p>Current unit prices for the Fund are available on <a href="http://www.firetrail.com">www.firetrail.com</a> or by contacting us on 1300 010 311 or <a href="mailto:service@pinnacleinvestment.com">service@pinnacleinvestment.com</a>.</p>
<b>NAV</b>	<p>The Net Asset Value or 'NAV' of the Fund apportioned to the Class A units is calculated by deducting the value of the fees, charges, expenses and other liabilities from the value of the gross assets attributable to the Class A units in the Fund.</p> <p>Current NAV per unit of the Fund is available on <a href="http://www.firetrail.com">www.firetrail.com</a> or by contacting us on 1300 010 311 or <a href="mailto:service@pinnacleinvestment.com">service@pinnacleinvestment.com</a>.</p>
<b>Unit pricing policy</b>	<p>The Responsible Entity complies with ASIC Class Order 13/655 as it relates to unit pricing requirements and has adopted a compliant policy for unit pricing discretions it uses in relation to the Fund ('Unit Pricing Policy'). Additional documents may be prepared for this purpose from time to time.</p>
<b>Distributions</b>	<p>Distributions are payable half-yearly as at 31 December and 30 June subject to the Fund having sufficient distributable income. The net distributable income of the Fund is allocated to unitholders on a per-unit basis according to the number of units held in the Fund at the end of the distribution period. Distributable income is calculated annually and is generally sent to unitholders within one month of the last day of the distribution period.</p> <p>A distribution reduces the Fund's net asset value and is therefore reflected in the Fund's unit price.</p> $\text{Your distribution} = \frac{\text{The Fund's distributable income apportioned to units}}{\text{Total number of units on issue}} \times \text{The number of units you hold}$ <p>Distributions will be reinvested for additional units in the Fund unless otherwise instructed.</p>
<b>Indirect investors</b>	<p>Investors and prospective investors may also access the Fund indirectly. The PDS and Additional Information the PDS has been authorised for use by operators through an Investor Directed Portfolio Service ('IDPS') or master trust. An IDPS is an investment and reporting service offered by an operator. People who invest through an IDPS, master trust or wrap account are indirect investors. Such indirect investors do not acquire the rights of a unit holder of the Fund. Rather, it is the operator or custodian of the IDPS or master trust that acquires those rights. Therefore, indirect investors do not receive income distributions or reports directly from us, do not have the right to attend meetings of unit holders and do not have cooling off rights. Different investment, balance and withdrawal minimums may also apply. Indirect</p>

investors should not complete the Fund's application form. The rights of indirect investors are set out in the disclosure document for the IDPS or master trust. If you are investing through an IDPS or a master trust, enquiries should be made directly to the IDPS operator or the trustee of the master trust.

1. Or less at the discretion of the Responsible Entity. Minimum investments do not apply to IDPS investments; see your IDPS provider.

### Section 3: Benefits of investing in the Fund

The Fund provides exposure to a concentrated portfolio of Firetrail's best global equity ideas. The Fund aims to hold approximately 30 securities at any time. Only those securities that the Investment Manager has the highest conviction to generate the greatest returns will be included in the portfolio.

The process employs quantitative and fundamental analysis to identify companies that:

- Meet the Investment Manager's sustainable investment criteria; and
- Offer the most attractive forecast returns based on the Investment Manager's medium-term view

#### Significant features and benefits

**High Conviction** | An actively managed, concentrated portfolio of Firetrail's best global equity ideas.

**Investment management expertise** | An experienced portfolio management team with over 15 years' working together.

**Positive change** | The Fund will actively seek to find investment opportunities that are adapting to a sustainable future.

### Section 4: Risks of managed investment schemes

**All investments carry risk.** All managed investment schemes carry different types of risk which can have varying impacts on returns. Due to uncertainty in all investments, there can be no assurance that the Fund will achieve its investment objectives. The value of your units at any point in time may be worth less than your original investment even after taking into account the reinvestment of Fund distributions. Future returns may differ from past returns. Returns are not guaranteed, and you may lose some or all of your money. You need to consider the level of risk that you are comfortable with, taking into account factors such as your objectives, financial situation and needs.

Risks can be managed but cannot be completely eliminated. It is important to understand that:

- the value of your investment may go up and down;
- investment returns may vary, and future returns may be different from past returns;
- returns are not guaranteed and there is always the chance that you may lose money on any investment you make; and
- laws affecting your investment may change over time, which may impact the value and returns of your investment.

The significant risks for the Fund are:

**Concentration risk** - The risk associated with a fund that concentrates its investments in a small number of securities or invests in a small subset of an asset class, resulting in possibly higher volatility compared to the broader market index.

**Counterparty risk** - There is a risk with external counterparty and service provider arrangements that the party to a contract defaults on, or fails to perform, its contractual obligations.

**Currency risk** - Investing in assets denominated in or primarily exposed to a currency other than the Fund's base currency may cause losses resulting from exchange rate fluctuations.

**Derivative risk** - The Fund may invest in derivatives as part of its investment strategy. A derivative is an instrument whose value is linked to the value of an underlying asset and can be a highly volatile investment instrument.

**Equity security risk** - The Fund primarily invests in equity securities issued by listed companies. The share price of a security can rise and fall as a consequence of many factors including, but not limited to, economic conditions, adverse investor sentiment, management performance, financial leverage, or factors that affect the company's industry.

**Foreign investment risk** - The Fund may invest in a range of international securities or foreign investment vehicles, and in companies that have exposure to a range of international economies and regulatory environments, which may impact the Fund's international investments.

**Income risk** - The Fund may make payments (regular or irregular) as distributions, depending on the income the Fund receives from underlying assets, which may fluctuate significantly in their market value.

**Investment strategy risk** - The success of the Fund depends upon the investment manager's ability to develop and implement investment processes and identify investment opportunities that achieve the investment objectives of the Fund.

**Investment structure risk** - There are risks associated with investing in the Fund, such as risks of the Fund's termination, changes to investment strategy or structure, changes to fees or expenses, or changes to the Fund's operating rules (such as payments or reinvestments of distributions, or additional investments).

**Liquidity risk** - Whilst the Fund is primarily exposed to traded assets traded on any Australian and International exchanges, and which are generally considered liquid, under extreme market conditions there is a risk that investments cannot be readily converted into cash or at an appropriate price.

**Regulatory risk** - The value of some investments may be adversely affected by changes in government policies, regulations and laws, including tax laws and laws affecting registered managed investment schemes.

**Unlisted security risk** - Unlisted securities can be less liquid or less transparent than listed securities.

**Withdrawal risk** – If we determine that this is in the best interests of all unit holders, we may suspend or delay withdrawals and these payments may take longer than the typical timeframe.

You should read the important information about 'Risks of Managed Investment Scheme' before making a decision. Go to 'Additional Information to the PDS' located at [www.firetrail.com](http://www.firetrail.com). The material relating to 'Risks of Managed Investment Schemes' may change between the time when you read this PDS and the day when you sign the Application Form.

Investors should aim to invest over a long period.	
Investment guidelines	The Fund aims to hold approximately 30 securities at any time and no more than 10% in illiquid securities.	
Portfolio allocation	Asset Class	Investment Range <sup>2</sup>
	Global equities	90% – 100%

Currency exposure	The Fund may use derivatives for hedging international currency exposure.	
Labour standards or environmental, social or ethical considerations	Firetrail applies environmental, social (including labour standards) and corporate governance ('ESG') considerations when selecting, retaining, or realizing investments in the Fund. The Fund looks to identify and invest in companies that it considers having sustainable business models and practices. In reviewing a company, it may look to engage with the company and influence its thinking with respect to these matters and where Firetrail believes the company has demonstrated wilful disregard for ESG principles, it may choose to avoid or divest.	
Change to Fund details	We have the right to change the Fund's asset classes, asset allocation ranges and investment return objectives without prior notice. We will inform investors of any material change to the Fund's details via <a href="http://www.firetrail.com">www.firetrail.com</a> or as otherwise required by law.	

- The investment objective is expressed after the deduction of management fees, expense recoveries and taxation, i.e. the investment objective is measured relative to the Fund's benchmark, after fees and costs and taxes are deducted from the Fund's performance. Refer to Sections 6 and 7 for further information on fees and costs and taxation. The investment objective is not intended to be a forecast, it is only an indication of what the investment strategy aims to achieve over the medium to long term, assuming financial markets remain relatively stable during that time. The Fund may not achieve its investment objective and returns are not guaranteed.
- The above ranges are indicative only. The Fund will be rebalanced within a reasonable period of time should the exposure move outside of the above ranges.

You should read the important information about 'How we invest your money' and 'How we keep you informed' before making a decision. Go to 'Additional Information to the PDS' located at [www.firetrail.com](http://www.firetrail.com). The material relating to 'How We Invest Your Money' may change between the time when you read this PDS and the day when you sign the Application Form.

## Section 6: Fees and costs

### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees and management costs. Ask the Fund (being the Responsible Entity) or your financial adviser.

### To find out more

If you would like to find out more or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission ('ASIC') Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund as a whole. Taxes are set out in Section 7 of this PDS. You should read all the information about fees and costs because it is important to understand their impact on your investment.

**WARNING:** Additional fees and costs may be paid to a financial adviser if a financial adviser is consulted. The details of these fees and costs should be set out in the statement of advice by your adviser.

### Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for the Fund can affect your investment over a one (1) year period. You should use this table to compare this product with other managed investment products.

Example of fee or cost	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
<b>PLUS</b> Management fees and costs	0.95% p.a.	<b>And</b> , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$475
<b>PLUS</b> Performance fees	0.08% p.a.	<b>And</b> , you will be charged or have deducted from your investment \$40 in performance fees each year
<b>PLUS</b> Transaction costs	0.00% p.a.	<b>And</b> , you will be charged or have deducted from your investment \$0 in transaction costs
<b>EQUALS Cost of Fund</b>	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 <sup>2</sup> during the year, you will be charged a fee of \$515. <b>What it costs you will depend on the fees you negotiate.</b>	

1. The example includes a performance fee estimate of 0.08%. As the Fund has not been in existence for a full financial year (as at date of this PDS) this is the Responsible Entity's reasonable estimate of the annual performance fee. However, the actual performance fee payable (if any) will depend on the performance of the Fund and the performance fee estimate provided may not be a reliable indicator of future performance fees of the Fund.
2. The example assumes management costs are calculated on a balance of \$50,000 with the \$5,000 contribution occurring at the end of the first year. Therefore, management costs are calculated using the \$50,000 balance only. Additional fees may apply, including a buy/sell spread (refer to further information below).

Please note that this is just an example. In practice, your investment balance will vary, as will related management costs. Fee rebates may be individually negotiated with wholesale clients (as defined in the Corporations Act). Go to 'Additional Information to the PDS' located at [www.firetrail.com](http://www.firetrail.com) for further information about negotiable fees.

We have the right to increase the fees or to charge fees not currently levied up to the maximum limits set out in the Fund constitution without your consent. If we choose to exercise this right, we will provide you with 30 days prior written notice.

You should read the important information about 'Additional Information on Fees and Costs' before making a decision. Go to 'Additional Information to the PDS' located at [www.firetrail.com](http://www.firetrail.com). The material relating to 'Additional Information on Fees and Costs' may change between the time when you read this PDS and the day when you sign the Application Form.

### Section 7: How managed investments schemes are taxed

**WARNING:** Investing in a registered managed investment scheme may have tax consequences. You are strongly advised to seek professional tax advice.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. The taxation implications of investing in the Fund can be complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units on capital account or revenue account.

You should read the important information about 'Taxation' before making a decision. Go to 'Additional Information to the PDS' located at [www.firetrail.com](http://www.firetrail.com). The material relating to 'Taxation' may change between the time when you read this PDS and the day when you sign the Application Form.

### Section 8: How to apply

#### Direct investors

To apply for units in the Fund directly, please read this PDS together with the Additional Information to the PDS located at [www.firetrail.com](http://www.firetrail.com) then complete the Application Form.

Direct applications received, verified and accepted by the Citi prior to 12pm (Sydney time) on a Business Day will generally be processed using the unit price for that day. For applications accepted after 12pm (Sydney time) or on a non-Business Day, generally the next Business Day's unit price will apply.

We reserve the right not to accept (wholly or in part) any application for any reason or without reason. No interest is received on application monies, including monies for additional investments, and no interest will be paid to you if for any reason your application can not be accepted.

#### Indirect investors

If you are investing through an IDPS or a master trust, enquiries relating to your account should be made directly to the IDPS operator or the trustee of the master trust.

#### Cooling-off

If you are a retail client (as defined in the Corporations Act) investing directly in the Fund, you have a 14-day cooling-off period. If you exercise your cooling-off rights, we will return your money to you and no fees will apply. However, the amount you receive will reflect any movement (either up or down) in the unit price of the Fund which means that there may be tax implications for you. The 14-day cooling-off period commences on the earlier of the end of the fifth Business Day after we issue the units to you or from the date you receive confirmation of your application. A cooling-off period does not apply to:

- wholesale clients (as defined in the Corporations Act);

- to the operator of an IDPS or trustee of a master trust. Indirect investors do not have cooling off rights in respect of any units held in the Fund. Speak with the IDPS operator or trustee of a master trust to determine whether any cooling off rights are available to you through the service; or
- where units have been issued as a result of an additional investment, switch or distribution reinvestment plan.

If you are an indirect investor, you may either contact your IDPS operator or us with complaints relating to the Fund. Complaints regarding the operation of your account with the IDPS should be directed to the IDPS operator. If you have first raised a complaint with your IDPS operator and are not happy with how the complaint has been handled, you should raise that with the IDPS operator or the IDPS operator's external dispute resolution service.
